

The Academic Library in Transformation

New and Extended Tasks for the Academic Librarian

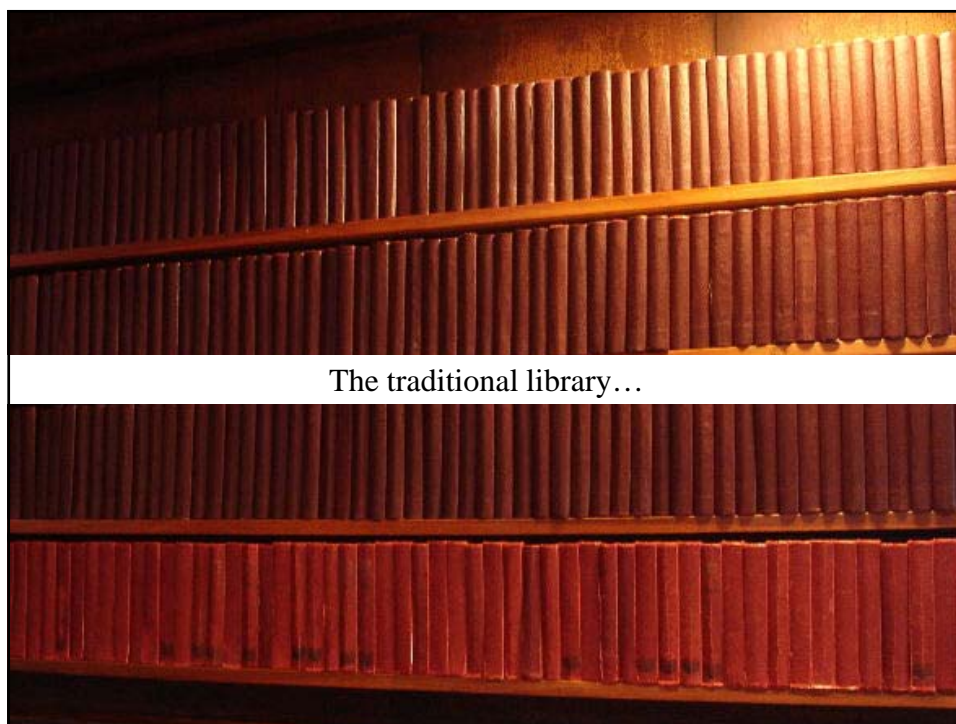

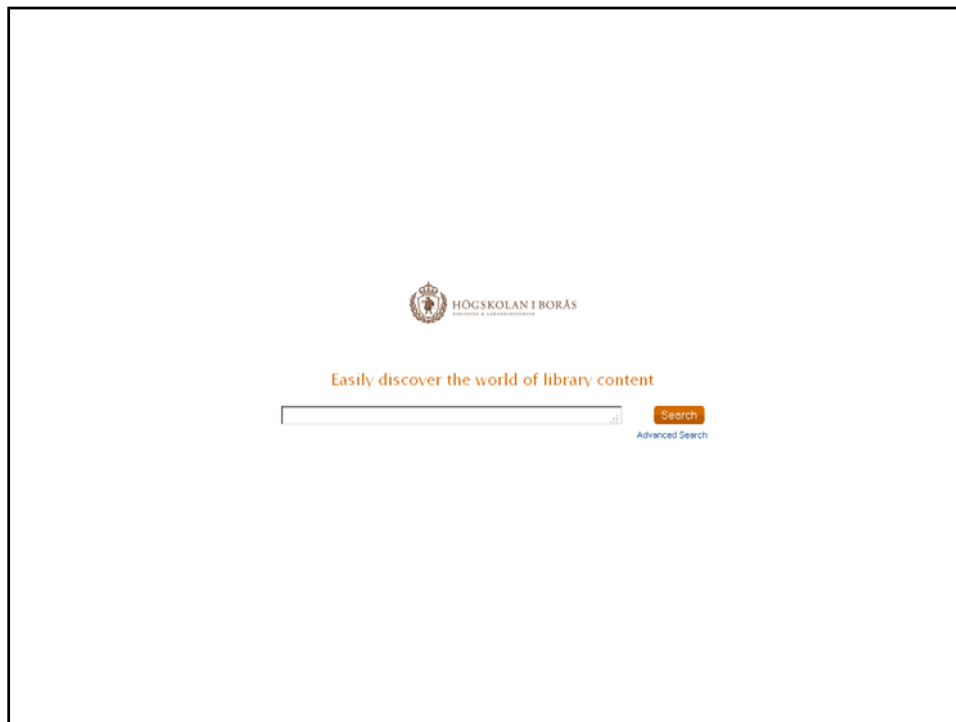

A story from two perspectives

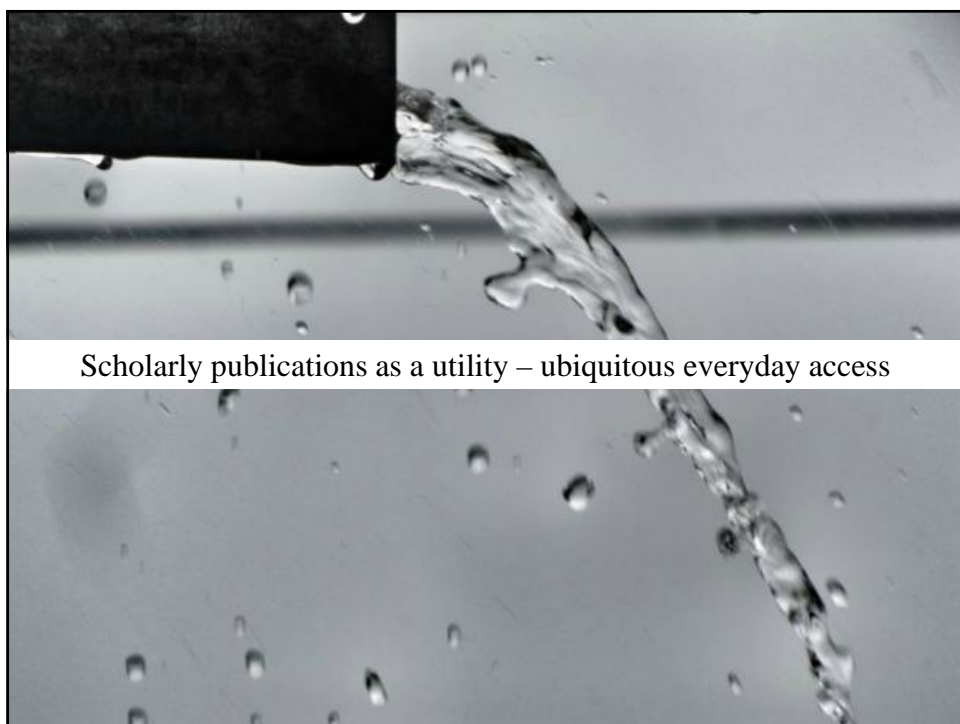

Ola Pilerot, PhD

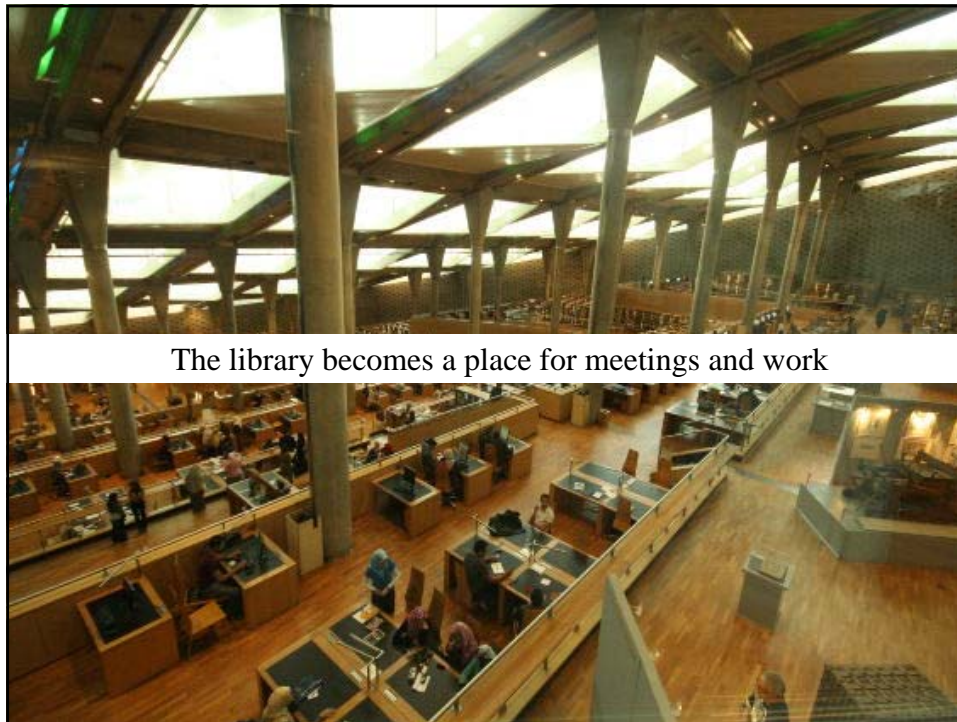

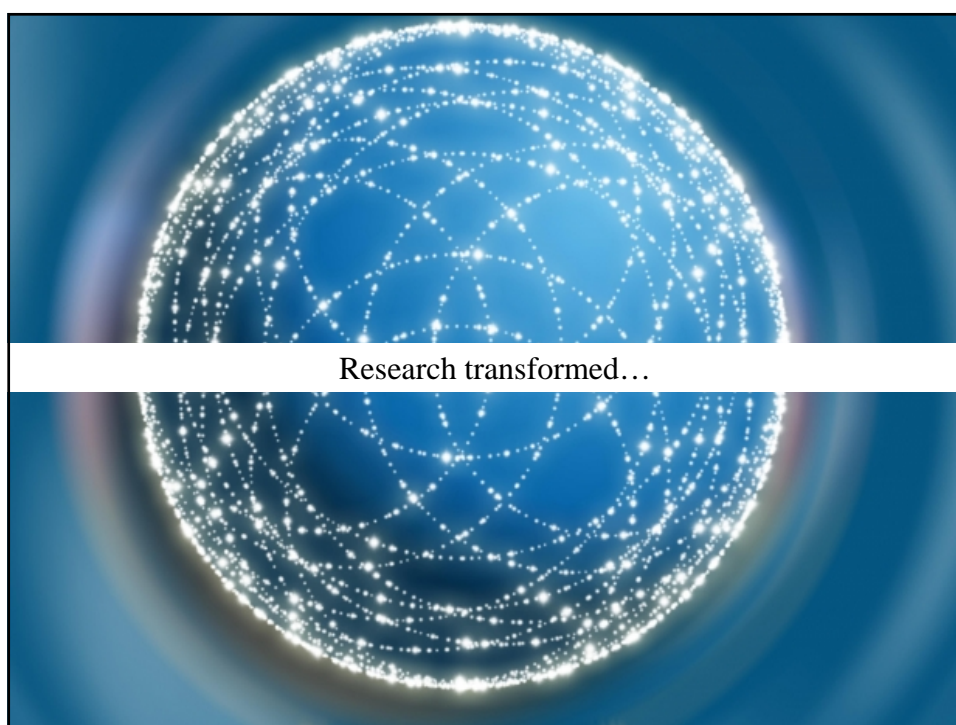

THE SWEDISH SCHOOL OF LIBRARY
AND INFORMATION SCIENCE
UNIVERSITY OF BORÅS

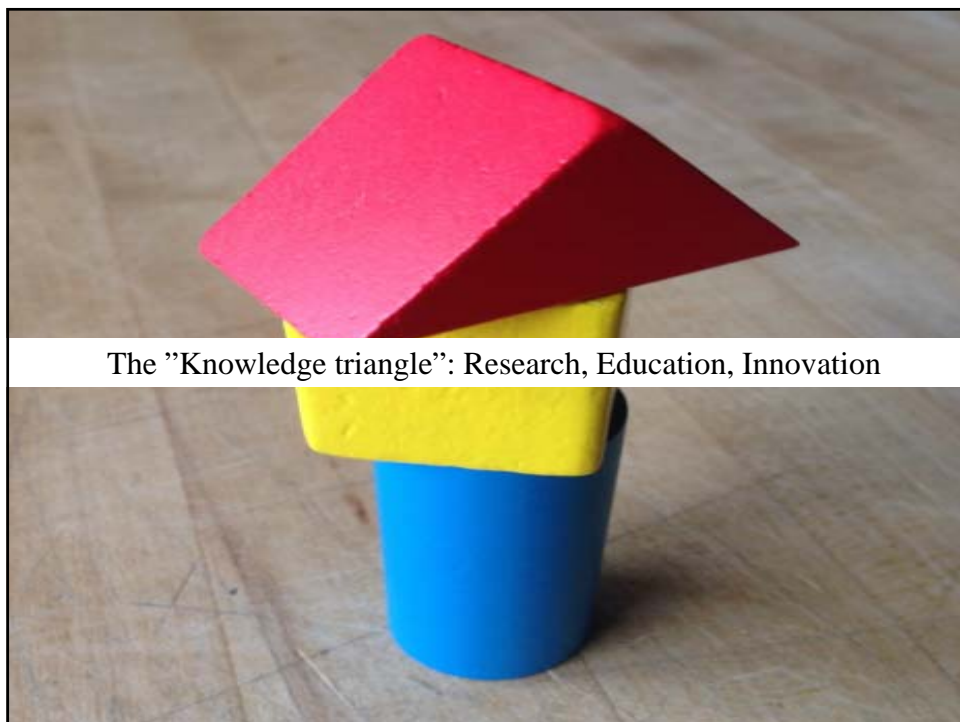

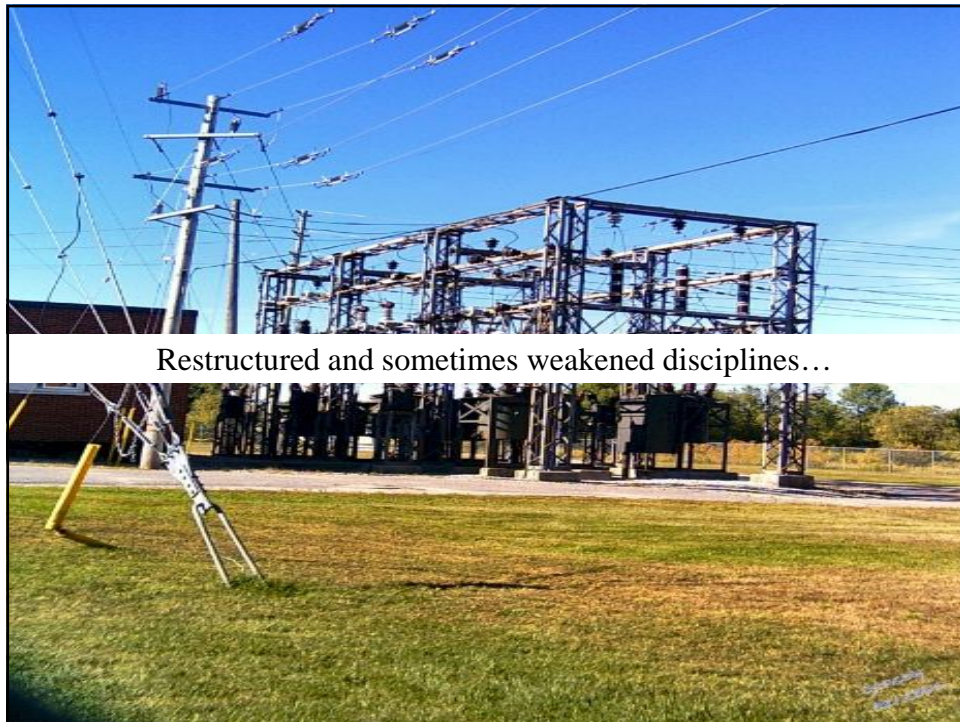

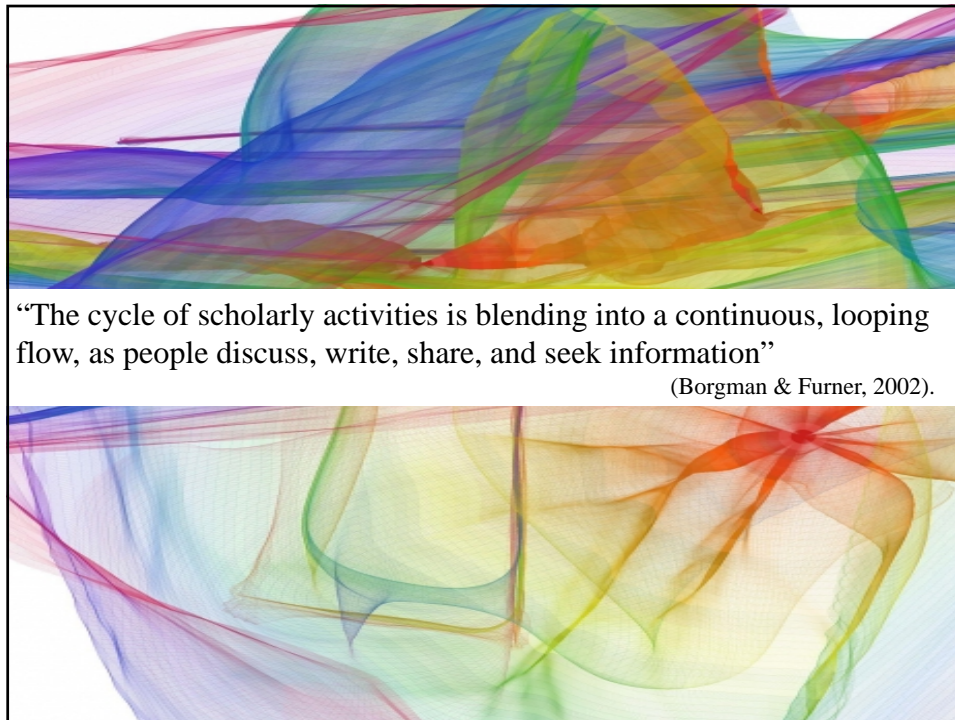

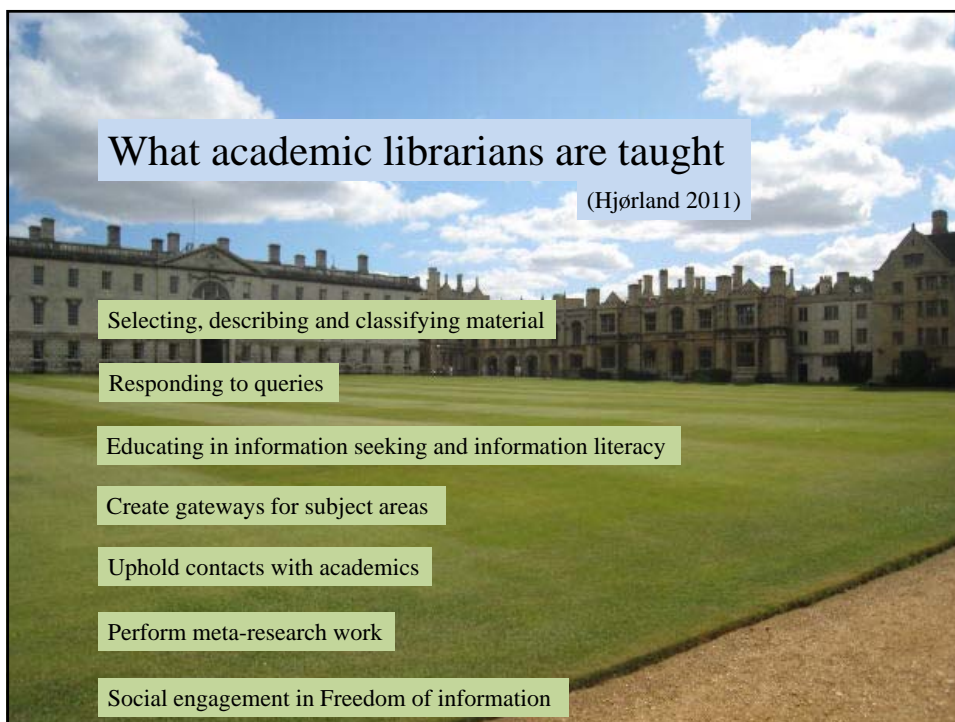

“The cycle of scholarly activities is blending into a continuous, looping flow, as people discuss, write, share, and seek information”

(Borgman & Furner, 2002).

What academic librarians are taught

(Hjørland 2011)

Selecting, describing and classifying material

Responding to queries

Educating in information seeking and information literacy

Create gateways for subject areas

Uphold contacts with academics

Perform meta-research work

Social engagement in Freedom of information

Knowledge

connects the dots

Libraries connect people to the information they need to solve problems, push boundaries and shape the future. OCLC, a global library cooperative, supports thousands of libraries in making information more accessible and more useful to people around the world.

Together we make breakthroughs possible.

Copyright, rankings, open access, predatory journals...

Open access papers 'gain more traffic and citations'
30 JULY 2014 | BY PAUL JUMP
 Open access science articles are read and cited more often than articles available only to subscribers, a study has suggested.

ORCID
 Connecting Research and Researchers

[FOR RESEARCHERS](#) [FOR ORGANIZATIONS](#) [ABOUT](#) [HELP](#) [SIGN IN](#)

DISTINGUISH YOURSELF IN THREE EASY STEPS
 ORCID provides a persistent digital identifier that distinguishes you and, through integration in key research workflows such as Scopus and ResearcherID, supports automated linkages between you and your professional identity.

Digital identity...

- 1 REGISTER** Get your unique ORCID identifier. Registration takes 30 seconds.
- 2 ADD YOUR INFO** Enhance your ORCID record with your professional information and link to your identifiers (such as Scopus or ResearcherID, LinkedIn).
- 3 USE YOUR ORCID ID** Include your ORCID ID in your email signature, CV, and in any research workflow to ensure you get credit for your work.

ORCID + UB = true!
 A new decision on publishing at the University of Borås was taken last week by the Vice-chancellor. The updated version included a decision that all researchers and PhD students must get ORCID (like 117-15). Some of you already have an ORCID and some have had to get one to apply for funding from the Swedish Research Council since the ORCID is needed to create a PROSODY account.
 ORCID is a unique number for researchers. It is like a personal ID number. You are required from other researchers who share your name. If you have had your name changed at some point of your research career the ORCID will keep your publications together, from before and after the name change. If you have a Scopus ID or Web of Science ID, you can link them to your ORCID.
